

I have previously sent an e-mail to the attorney general's office expressing my opinion about the FCC allowing phone solicitation back into our homes. Now I am passing it own to you. Perhaps those from the FCC do not go home to be hounded with these unwanted annoying call from phone solicitors. Perhaps it can be set up to have these calls forwarded to your number so that you can experience these calls. We have enough going in this world and to add this back into our lives IS NOT the right thing to do!!!!!!
